

the south end, leaving almost dry ground at the north end. Steamboats were along the high water. No tidings from the south end of the river have been received. A flood of water is expected to come usually high. So far no loss of life has been reported. The wires are all down, and this report coming from the passengers coming into Jacksonville.

TWENTY-ONE DROWNED.

Houses and Their Occupants Washed Away at Magnolia Beach.
GEORGETOWN, S. C., Oct. 14.—The entire water front of Georgetown was flooded and much damage was done to merchandise stored in warehouses by the storm. At Magnolia Beach almost every house was washed away, and thirteen white and six colored people were drowned. A number escaped a watery grave by taking refuge in trees. The white people drowned at Magnolia Beach are: Dr. A. B. Plagg and wife; his son, Dr. A. B. Plagg, Jr.; his wife and five children; Miss Belle B. Bruce, Miss Alice L. Bruce, and two Misses Weston. The colored people drowned are: Benjamin Weston. The tide rose three feet in some houses on P. P. Frazier and L. C. Lachotte were washed away entirely. The inmates only saving what clothing they had on. No lives were lost on the island.

Little Damage to Shipping.

NEW YORK, Oct. 14.—Though somewhat similar to the two great storms in August last, the West India cyclone which visited this region on Friday night does not seem to have proved so disastrous. This was largely due to the fact that the path of the storm center, after striking northern Florida and Georgia, was veered instead of along the coast, passing over western Pennsylvania and eastern Ohio, over the lakes into southern Canada and now central near Montreal. Owing to the fact that telegraph wires few reports have yet been received. At Sandy Hook the velocity of the wind was sixteen miles per hour. Small accidents are reported here, but none of a serious character occurred within the city. The Western Union reports that the damage to their wires practically as severe as by the storm of August last. Many cables and small vessels were disabled or blown ashore, but fortunately no drownings have as yet been learned of.

The storm has subsided in this vicinity, but is raging furiously in the western and northern parts of the State. Advice from Buffalo to-night state that the wind is blowing there at the rate of sixty miles an hour. Considerable damage has been done and several lives have been lost, as far as learned no lives have been lost.

Damage in New England.

BOSTON, Oct. 14.—The Southern hurricane spent its force in New England between midnight and noon to-day, doing a large amount of damage to shipping and wires. Nearly all Western Union telephone and telegraph wires were laid low in the suburbs of Boston, and for several hours but one wire was working to New York, while communication with points north and west was cut off. The fishermen of Gloucester report heavy losses. The schooner at Block Island, the *Portland*, was exposed along the coast blew sixty miles an hour. The government telegraph lines between New York and New England and Woods Hole are down, and no steamers ventured across the sound to-day. At South Boston the wind was so strong that pleasure boats were driven ashore, and several of the boats broken up. Meagre details are reaching from the western coast of the ravages of the storm to the southward. Many wrecks are reported, but particulars of but one have been received. This is the barkentine *Ravenswood*, from Boston, which went ashore at Chicameco, N. S., yesterday morning. The crew were rescued with great difficulty.

Flood at Baltimore.

BALTIMORE, Oct. 14.—The southern part of the city is flooded, and water at the docks is even with the surface of the street. In various sections of the city houses were unroofed and trees blown down. The wind and rain swept water in the harbor that many trains on the Baltimore and Ohio were unable to cross at Locust Point at which place they were ferried across. From Annapolis and other points reports are multiplied of damage by the storm. The damage is greater than has been known elsewhere. The tide rose to the level of the wharves, overtopped into stores and warehouses, and the merchandise and the places of business of oyster packers, and completely destroyed the oyster business. The damage to the oyster business is estimated at \$1,000,000. As the dredging season opened on Monday, the oyster boats had been prepared for the season. The destruction of property all through the city was very large.

Storm on the Lakes.

MANISTEE, Mich., Oct. 14.—The storm which has been raging since yesterday is the most severe that has visited Manistee for many years. A large number of trees are uprooted and fences blown down. Most of the mills had to shut down to-day, owing to the violence of the storm. The water was never down before. Several steam and sail vessels left here yesterday afternoon. No word has reached here that they have sought shelter from the fury of the storm. The discontinuance of the signal station at this point is condemned.

Too Windy for the Circus.

Special to the Indianapolis Journal.
ALTOONA, Pa., Oct. 14.—Barnum & Bailey's show lost several thousand dollars in this city to-day. A terrific gale blew the smaller tents down as fast as they were put up, and it was impossible to get the big tent up. No exhibition was given, and thousands of disappointed people watched the circus leave this evening.

Disastrous Flood in Mexico.

CITY OF MEXICO, Oct. 14.—Bursting water dams in the territory of Tepic have caused great loss of life and property. Twenty-four persons are known to be drowned. At Santa Inez, in the state of Oaxaca, the town was inundated and the town hall and many houses were swept away. There were similar disasters in other towns.

Tug Sunk Instead of a Steamer.

BOSTON, Oct. 14.—Reports that a steamer was run down during a fog in the Boston harbor last night and lost, with all on board, are based on a report from a tugboat which shows that the report probably grew out of the sinking of a tugboat in the harbor, but everybody on the tug was rescued.

Forecast for To-Day.

WASHINGTON, Oct. 14.—For Indiana and Illinois—Fair; warmer; northwest winds. For Ohio—Fair, clearing early near the lake in the early morning; westerly winds, diminishing in force.

The West India cyclone, central Friday evening over northern Virginia, has advanced north of the St. Lawrence river, attended by heavy rains and severe gales in the Middle Atlantic and New England States and the eastern lake region. An increase of high barometer has moved southward over the Southern States, and the barometer is high thence to Manitoba. The temperature has fallen in the central valley of the lake region and the Middle Atlantic States; elsewhere it has risen. Generally fair weather has prevailed in the central valley and the Pacific States. The weather is indicated generally over the United States for Sunday, except from the eastern lake and the New England States, where fair weather will be preceded by rains. The temperature will fall in the Middle Atlantic and New England States, and will be somewhat higher in the central valleys and the western lake regions.

Local Weather Report.

INDIANAPOLIS, Oct. 14.
Time, Bar, Ther, R, H, Wind, Weather, Prec.
7 A.M. 29.63 47 89 Wet. Pt. Cloudy 0.06
7 P.M. 29.63 48 40 West. Cloudy 0.00
Maximum temperature, 54; minimum temperature, 46. The following is a comparative statement of the temperature and precipitation for Oct. 14, 1893:
Normal, 55.5; actual, 54.0; difference, -1.5.
Excess or deficiency since Jan. 1—-2.64.
Excess or deficiency since Jan. 1—-2.64.
C. F. R. WATKINS, JR.,
Chief, Forecast Office, United States Weather Bureau.

Abducted Her Own Child.

NEVADA, Mo., Oct. 14.—Mrs. Mollie Longwell, of Loganport, Ind., called at the public school here yesterday and asked to see eleven-year-old Addie Cassady. The request was granted. Last night Addie failed to come home. This morning her father stated the strange woman was the child's mother, from whom he was divorced in Indiana about three years ago. The woman and child left here on the Missouri Pacific last night, presumably for Loganport.

CLOSE AT LEXINGTON

Five Races Finished Yesterday and Two Declared Off.

Blue Grass Stake of \$1,500 Captured by David B. in the Last Three of Five Well-Contested Heats.

LEXINGTON, Ky., Oct. 14.—A large crowd attended the racing on Sunday day. The weather was cold and windy, but the track was in fair condition. Two of the seven races on the card were declared off. The first event was called at 10 o'clock in the forenoon, and the last heat was finished at 5 o'clock. The Blue Grass stake, for four-year-old trotters, was a hard fought race, but the other races were furnished only ordinary sport. The meeting has been a success, financially and otherwise. All the stables shipped their horses to Nashville to-night. Summaries:
2:21 class; trotting; purse, \$1,000.
